

CASE STUDY

Hamlet Gardens

Brief

The refurbishment of the lower ground, ground, first, second and third floors of 201 – 220 Hamlet Gardens totalled 40 residential units and incorporated the common parts and external areas.

Project info

Sash windows, chimneys and stonework repairs.

Works to Hamlet Gardens were completed in phases, sympathetically restoring the red brick Victorian mansion blocks into luxury apartments of varying sizes. Internally, works included the internal reconfiguration of the apartments, and the installation of new high quality fixtures and fittings. These included kitchens, bathrooms, bespoke joinery units and floor coverings.

Externally we installed new sash windows, overhauled the existing roof coverings and chimneys, and completed both stonework and brickwork repairs.
