

CASE STUDY

Pindock Mews

Brief

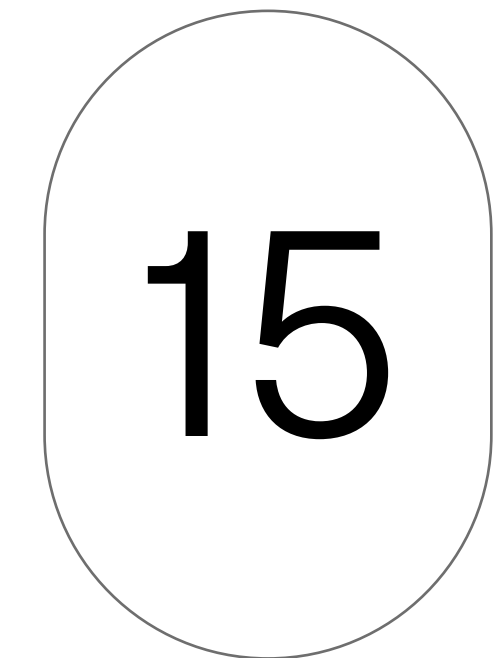

This project was undertaken on behalf of a private individual and involved the internal and external repair and refurbishment of an existing Mews property in London.

Project info

Open plan living and natural light coupled with high quality fittings.

At Pindock Mews, the existing roof was extended to create a large bedroom within the loft space, and new roof coverings were installed with the addition of a large skylight, flooding the staircase with natural light. The internal spaces were reconfigured to create open plan living areas and a new staircase was installed throughout. The property was finished with bespoke joinery, and high quality fixtures and fittings.
